About

At a young age I developed a passion for music. Not only by playing music, but also creating music. After high school I studied “composition for the media”, a study focussing on composing music for tv, film and games. In 2010 I finished the study with a master of arts title. As a graduation project I composed 8 pieces for trailer usage. Therefore I recorded a 27 string piece orchestra at the Conservatory of Amsterdam.

In 2008 I had the opportunity to be an intern in the studio of Jeff Rona in LA (Santa Monica). During the internship I’ve worked as an assistant on Persons Unknown, American Renegade and video game God of War III.

Why work with me?

- + able to work fast (2 minutes/day for full orchestra) without quality loss
- + can write in a variety of styles, especially good in orchestral music, dance, pop and jazz
- + young and fresh vision on media music
- + not as pricey as very experienced composers
- + big network of musicians, producers, sound designers and other composers to collaborate with
- + fast internet connection, almost always online and English knowledge to easily work international
